STONE PRODUCTS

SUPPLIERS AND MANUFACTURERS OF QUALITY YORKSTONE
PRODUCTS FROM OUR OWN QUARRY IN WEST YORKSHIRE

www.ashlarstoneproducts.co.uk

ABOUT US

Ashlar Stone Products supply a wide range of natural Yorkstone products from our own quarry based in Keighley, West Yorkshire.

Our reputation has been built on high quality stone and excellent customer service for over 35 years. All products are manufactured directly on site using the stone extracted from Branshaw Quarry.

Branshaw is unique from other quarries within the area. It is pale grey in colour with some hints of buff, which are more pronounced when wet. The natural formation of the sandstone gives a dappled pattern which varies block to block. This gives a contemporary look, whilst still holding the hard wearing characteristics of natural Yorkstone.

Please don't hesitate to contact us to discuss your requirements.

SAWN PAVING

Diamond-Sawn Yorkstone Paving

300 to 600 wide x random/fixed lengths

Thickness: 30 or 50mm

The paving is produced from our own Branshaw stone, quarried on site, which is a unique dappled, pale grey colour. When wet the colours are more pronounced, giving a warmer buff grey feel.

The natural durability of our sandstone makes this product ideal for patios, driveways and landscaping, as well as indoor flooring use.

RIVEN PAVING

Hand-split Yorkstone Flags

600 wide x random

Thickness: 30-60mm

Newly split yorkstone flags, quarried in Yorkshire.

Our natural Yorkstone flags have a rough finish created by splitting the stone by hand. Yorkshire stone riven paving is a timeless choice with a beautiful finish, which is popular for traditional restorations, garden and patio projects.

SAWN BUILDING

Made to order using quality stone from Branshaw Quarry.

Diamond sawn six sides building products can include sawn walling, window and door sets, heads and cills, quoins and anything else required on a new build, extension or conversion. Chamfering is also available should this be required.

SAWN STEPS

Diamond-sawn Yorkstone steps

Any size + bullnose available

Thickness: 50 or 75mm

Steps are created using quality stone quarried on site in West Yorkshire. The dappled grey/buff colour of this stone gives a modern contemporary look, yet still holds the traditional hard wearing characteristics of yorkstone.

Bullnosing is available if required.

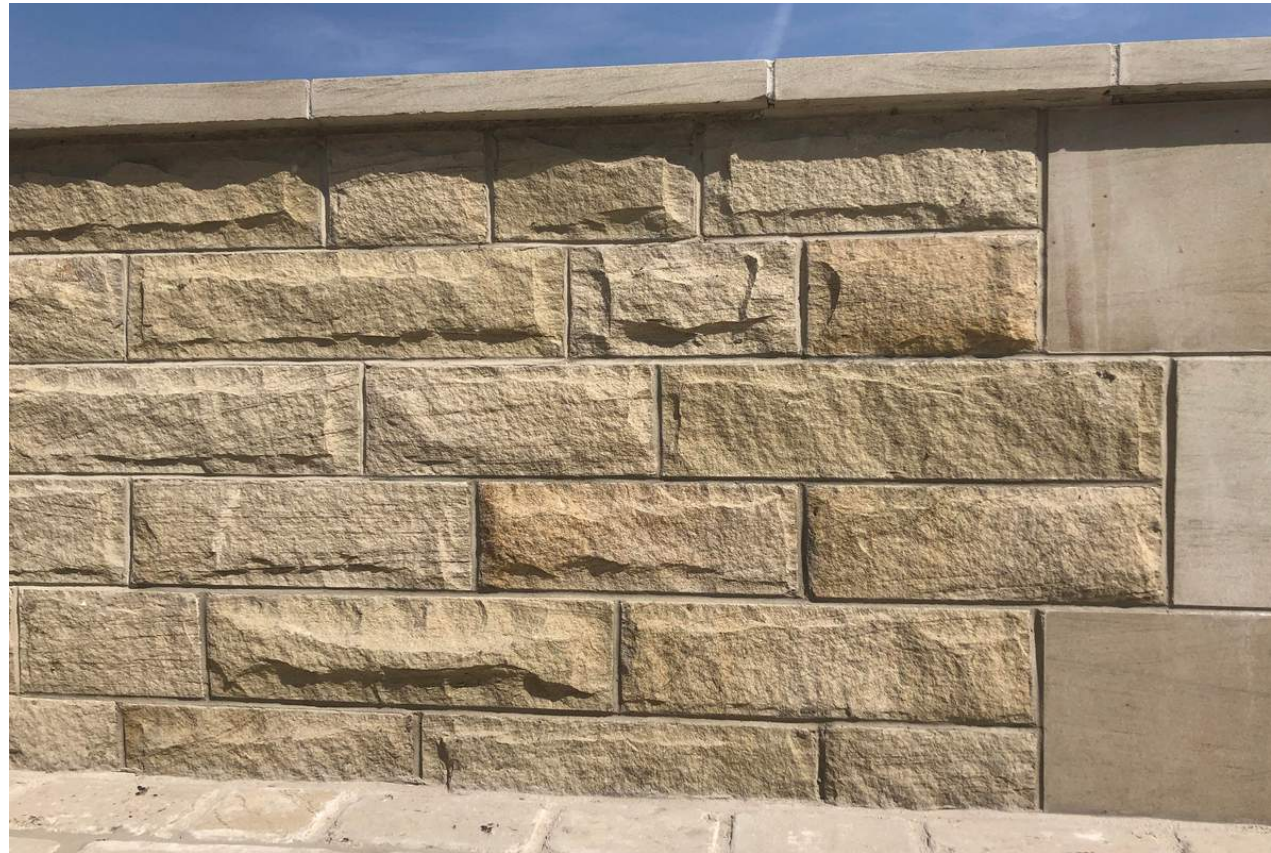

COURSED DRESSED WALLING

Sizes: 140mm or 100mm

A popular building product, our walling stone is quarried and hand dressed on site. Perfect for stone facing, walling, garden and renovation projects. The stone is supplied in a grey/buff sandstone from our own quarry.

Walling can also be tumbled and/or blackened to create an aged or weathered appearance.

RANDOM DRESSED WALLING

Ideal for garden walls and other building projects. The course height varies from 75mm to 200mm with some jumpers mixed in. Random dressed walling looks great with our half-round wall tops.

Walling can also be tumbled and/or blackened to create an aged or weathered appearance.

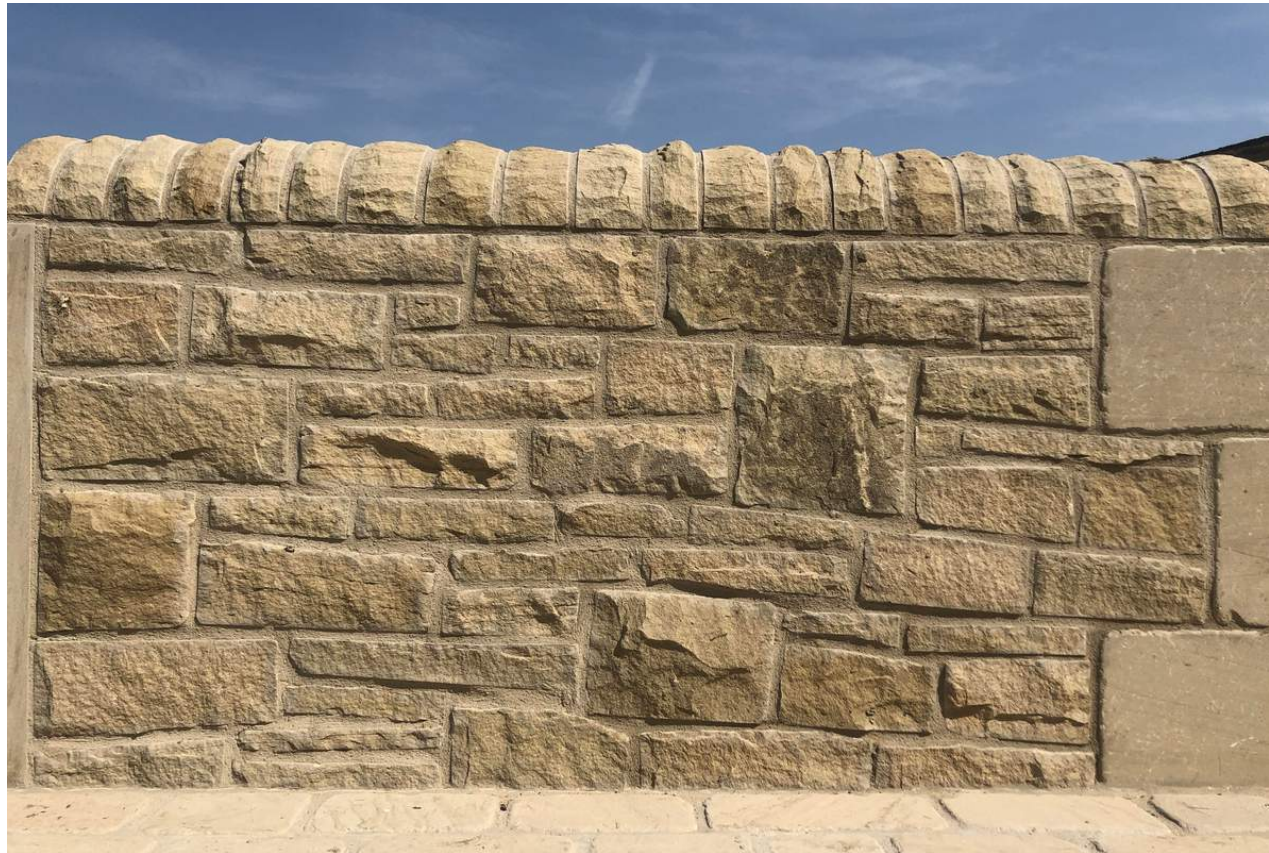

COTTAGE WALLING

Traditional walling stone supplied in a 1 tonne bag.

This walling is a more rustic alternative to our Dressed Walling stone, ideal for matching existing stone on renovations or garden walls. The stone is supplied in a grey/buff sandstone from our own quarry.

Can also be tumbled and/or blackened to create an aged or weathered appearance.

DRY STONE WALLING

Traditional stone supplied in a 1 tonne bag or loose

Our dry stone walling is made from the end of our saw blocks, so there is one sawn face to most pieces but the other sides are natural. The stone is a grey/buff sandstone from our own quarry.

COPING

Sawn or Riven Yorkstone coping and Half-Round Walltops.

Dressed and fettled edges available as well as chamfered coping.

Sawn and riven coping can be made to any width required and are generally supplied in random lengths and 50mm thickness. We can supply bespoke lengths and thicknesses if needed.

Half-round walltops also available, hand crafted in our own quarry. Widths range from 12"-18" as standard.

TUMBLLED SETTS

Diamond-sawn tumbled Yorkstone setts
100mm, 150mm or 200mm wide x
random lengths
Thickness: 30mm or 50mm

Our tumbled setts, or cobbles, are produced from our own stone, quarried on site. The product is tumbled to round the edges and give an aged effect.

Our Yorkshire sandstone is known for it's hard wearing qualities and durability, ideal for driveways and paths.

200mm PAVING TILES

200mm wide x random lengths

Thickness: 30mm

Paving tiles ideal for paths and walkways, made from the same dappled-grey/buff stone as our premium paving.

MONUMENTAL & MASONRY

Our highly skilled masons are experienced in headstones, lettering, detailed carving, fireplaces and more.

All monumental pieces are made to order and tailored to your specific requirements.

The monumental stone from Branshaw Quarry is renowned for its quality tight grained sandstone with a unique dappled grey colour.

RETAINING WALL BLOCKS

Ideal for gardens and landscaping.

The stone blocks are sawn on one or two sides, depending on the block.

Blocks are 400mm to 600mm high and 500mm to 2.5 meters long, weighing 1/2 tonne to 2 tonnes per block.

CONTACT US

We can supply for projects big and small, commercial or domestic across the UK. Please don't hesitate to contact us to discuss your requirements and

We also supply to a number of reputable stone merchants across the UK and are always looking to build new partnerships.

Should you wish to view a sample of our stone we would be delighted to arrange this free of charge. We also welcome site visits to our quarry in West Yorkshire where you can meet the team and view our products in person.
